Payment deadline Oct 20, 2024

Organisers: Momo Bentires-Alj, Juliane Heilig, Elisabeth Kappos, Christian Kurzeder, Simone Muenst, Anton Oseledchyk, Fabienne Schwab, Jane Shaw, Magda Sznurkowska, Marcus Vetter, Walter Weber, Nathalie Laschet

12:40-13:00 Arrival and badge pick up

13:00 Welcome & Opening remarks: Walter Weber and Momo Bentires-Alj

13:00-13:20 Review of the year in *Basic and translational breast cancer research*

Rob Clarke, University of Manchester- UK

13:20-13:40 Review of the year in *Clinical breast cancer research*

Cliona Kirwan, University of Manchester - UK

13:45-15:15 Session 1

Chairs: Fabienne Schwab and Michal Kloc

13:45-14:05 **Hege Russnes**, University of Oslo, NO

"Locoregional immune response to breast cancer what can we learn from lymph nodes?"

14:05-14:15 Discussion

14:15-14:35 **Hans Wildiers**, UZ Leuven, BE

"Breast cancer in older women: clinical and translational challenges"

14:35-14:45 Discussion

14:45-15:05 **Christine Fritsch**, Novartis Biomedical Research, Basel, CH

"From BYL719 to PIQRAY® – The drug discovery and development journey of the first PI3K alpha-specific inhibitor"

15:05-15:15 Discussion

15:15-16:00 **Coffee break and interactions with sponsors**

16:00-16:15 News from the technology front: **Maren Diepenbruck** and **Charly Jehanno**

University Hospital Basel, Department biomedicine, CH

16:15-16:45 **Speed posters:** presentation of the 10 selected abstracts

16:45-18:15 Session 2

Chairs: Juliane Heilig and Marcus Vetter

16:45-17:05 **Arianna Calcinotto**, IOR Bellinzona, CH

"Neutrophils in cancer: heterogeneous and multifaceted"

17:05-17:15 Discussion

17:15-17:35 **William Jacot**, Institut Cancer Montpellier, FR

"HER2 targeting: from oncogenic addiction to Trojan horse"

17:35-17:45 Discussion

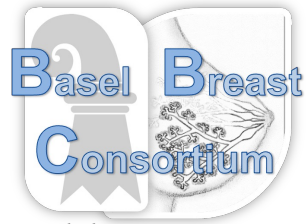

17:45-18:05 **Rory Goodbody**, Gilead Dublin, IR

"Triggering tumour-intrinsic cell death in breast cancer"

18:05-18:15 Discussion

18.15-21.00 **Poster session and Apéro riche:** 4 best posters will be selected for the BBC awards

Tuesday October 22, 8:30

8:30-10:00 Session 3 Chairs: Simone Muenst and Nicolas Kramer

8:30-8:50 **Carlo Fremd**, University Clinic Heidelberg, DE
"B cell immunology orchestrates response to immune checkpoint inhibition of breast cancer"

8:50-9:00 Discussion

9:00-9:20 **Francois-Clément Bidard**, Institut Curie, FR
"Biomarkers to guide HR+ HER2- metastatic breast cancer treatment"

9:20-9:30 Discussion

9:30-9:50 **Milena Wild**, AstraZeneca- CH
"Camizestrant - long anticipated innovation to the endocrine therapy story"

9:50-10:00 Discussion

10:00-10:30 Round table discussion related to all Sessions

Chair: Christian Kurzeder

All speakers from Sessions 1-3

10:30-11:00 Coffee break and interactions with sponsors

11:00-11:20 Talk by patient advocate :

Maria Katapodi
"The road to rehabilitation"

11:20-11:30 Discussion

11:30-11:45 BBC awards ceremony

11:45-12:30 Keynote lecture

Chair: Momo Bentires-Alj

Prof. Fabrice André
*Director of research at Gustave Roussy,
Professor of medicine at University Paris-Sarclay, FR*

"Mechanisms of action of ADC in patients with metastatic breast cancer"

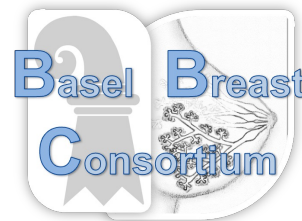

12:30-12:45 Discussion

End of the meeting
